

## Britannian Bone Set

This potion will speed the healing of broken or cracked bones. Each dose will mend all the broken bones in an entity in 8 hours (+2 hours/broken bone). It must be used in conjunction with splinting or the bones will heal crooked, and it is heavily recommended that the patient does not move the injured part for the duration.

The healing process is quite painful and tiring. The drinker will loose 3FT/hour and will need to make regular 1x WP checks to take any action except resting. Mixing this potion with pain relievers or Healer Soothe Pain results in a soporific calm and the patient will be dazed and sleepy.

**Doses:** 8 *each dose is in an individual glass bottle*

**Aura:** Formerly living composite

**Value:** 600 sp/dose

**GM:** Rosemary Mansfield

**Weight:** 2 oz

**Date:** Nov 2009 / Spring 809

## Britannian Dark Magic Cleanser

This potion will dissapate one malignant magic.

The magics it can dissapate are: evil eye, cantrips, backfire effects and minor curses.

If there is more than one dark magic in effect then it will remove the moset recent magic.

This potion tastes disgusting and takes 15 minutes to work.

**Doses:** 2 *each dose is in an individual glass bottle*

**Aura:** Formerly living composite

**Value:** 600 sp/dose

**GM:** Rosemary Mansfield

**Weight:** 2 oz

**Date:** Nov 2009 / Spring 809

## Dr Cuthbert's Wooly Animal Dye - Pink

If this potion is fed to an animal with wool (sheep or goat) it will change the colour of the animal's wool to soft pink. The colour change will happen as new wool grows in.

The colour change is permanent for the life of the animal but offspring will not inherit the colour unless both parents have been feed the same potion. (If the parents have had different Dye Potions then they may be pided in natural plus the relevant colours).

**Doses:** 4

**Aura:** Formerly living composite

**Value:** 600 sp/dose

**GM:** Rosemary Mansfield

**Weight:** 1 lb

**Date:** Nov 2009 / Spring 809
