Trap for Thieves

This solid gold medalion has little prongs on the back to affix it to other objects.

It is affixed to an object by dipping the prongs in the owner's blood and then pushed into any part of the object the prongs can pierce.

The object is now trapped and if it is stolen from the owner the thief will be cursed with bright blue hands and +5 all die rolls. This greater curse has an MA of 33.

The curse can be removed with a Remove Curse ritual or by the owner smearing some of their own blood on the palms of the thief.

The owner can remove the medalion from one item and affix it on another. If the owner sells or gives away the item the trap is disabled until the medalion is removed and re-affixed by the new
